S400

Slider & Fixed

- Double track design
- Hung or horizontal sliding
- Top insert has extension flange fitting into upper channel to help eliminate draft and assist with wind rattle
- Metal interlock at meeting rail between glass inserts seals out draft, water seepage and eliminates wind rattle
- Screen meeting rail assists in eliminating wind rattle and keeps out insects
- Double track frame, lift rails with slide bolts, allows screen and glass panels to operate and remove more freely
- Non-equal sash (Oriel) available on hung model
- Horizontal Slider model is available as Single Slide, Center Vent or End Vent

- Triple track design
- Half screen on interior track
- Wrap-around glazing resists breakage and adds superior durability
- Metal interlock at meeting rail between glass inserts seals out draft, water seepage and eliminates wind rattle
- Screen meeting rail also assists in eliminating wind rattle and keeps out insects too
- Snap-together frame construction forms a hollow support area for added strength
- Triple track system permits top or bottom ventilation
- Full screen in exterior track
- Non-equal sash (Oriel) available

- Exterior Fixed storm that swings outward for easy cleaning
- Full length hinge top easily operates
- Continuous hinge design works as a drip cap to whisk away rain
- Mechanically fastened corners
- Ask about screen inserts for full ventilation during warmer weather

- Specially designed interior storm
- Fixed or Horizontal Sliding operation
- Slider available in Single Slide, End Vent or Center Vent configuration
- Nylon buttons hold panel in place on fixed units
- Buttons easily swivel to remove glass panel
- Screen can be used in place of glass panel
- Heavy-duty design works great for larger openings
- Mechanically fastened corners use sturdy corner keys

Standard Features for all Series

- 37 quick-pick powder-coat colors
- Non-painted "mill" finish
- Heavy-duty extruded aluminum profiles
- Clear, single pane glass
- BetterVue Fiberglass mesh screen on all operable units
- Installation flange (*not available on S400 Series*)
- Adjustable sill expander adds an extension for a snug fit (*not available for S400 Series*)
- Provides an additional barrier against sound infiltration
- Quaker's limited warranty covers paint, glass and operable parts. See your authorized Quaker dealer for full warranty details

Optional Features for all Series

- Custom powder-coat color
 - Custom finish
 - Low-E or tinted glass
 - Obscure glass for private areas
 - T.V.A. Package (*available on all series except S400*)
- The T.V.A. Package is a Quaker exclusive. It provides structural and thermal enhancements that give you a much more stable window while also boosting energy-efficiency. It is automatically added to units taller or wider than 75".
